

# FCT SERIES-FRONT ACCESS AGM BATTERY

## FCT12-150

12V150AH C10

Front access terminal design

Maintenance-free operation

Low self-discharge

### FUNCTION FEATURES

#### MAINTENANCE-FREE OPERATION

Electrolyte can be hardly reduced during use and additional water is not necessary in its service life.

#### SAVE SPACE

Unique narrow shape designation and front terminal connection make installation and maintain easier, space can be saved.

#### SPECIALLY FOR POWER CABINET

Front access terminal with standard width for 19" and 23" ETSI racks.

#### LOW SELF-DISCHARGE

Fully manufactured from high purity raw material, the cells have extremely low self-discharge.

#### HIGH POWER DENSITY

Tight assembling technology enable batteries have high rate discharge performance.

#### MAINTENANCE-FREE OPERATION

Electrolyte can be hardly reduced during use and additional water is not necessary in its service life.
